Dear Mitch,

I want to take this opportunity to thank Dynamix for the outstanding service that their facilitators provided our students at Joliette Elementary School. Our staff found that all aspects of the Dynamix program were not only beneficial to the students, but were also enjoyable and practical. The program really helped the students build their cooperative skills and be more aware of their strengths and weaknesses.

Joliette Elementary School is extremely pleased with the Dynamix team and I, as school principal, would be delighted to share my experiences with any school interested in the Dynamix program.

Sincerely,

A handwritten signature in blue ink that reads 'Karen Lorenz'.
